05.26.2021 - REV:A

CAUTION FAILURE TO FOLLOW THESE WARNINGS OR FOLLOWING ASSEMBLY INSTRUCTIONS, MAY RESULT IN PROPERTY DAMAGE, SERIOUS BODILY INJURY OR DEATH.

- **This unit contains small parts and packaging which could be a choking hazard for small children. Children should always be under adult supervision.**
- **Always unload unit and unplug all cables prior to moving the unit. The weight of personal belongings, or a snagged cable could cause the unit to become unstable and either tip or collapse.**
- **Do not slide the unit across the floor with leveling feet installed, as this may cause leg failure and the table could collapse.**
- **Do not overload any surface of the unit. The top or sides could collapse. (See cover page for max weight load)**
- **Do not climb, step, or excessively lean on the unit. The unit may become unstable and either tip or collapse.**
- **Do not attach or overload the sides, rear, or front of the unit, unless specified as an accessory, as this can create a force which can cause the unit to tip.**
- **Use hand tools for assembly to prevent damage like stripping or overtightening hardware.**
- **We recommend you protect your work surface during assembly to prevent scratching or damage to tabletops, wood floors, etc.**
- **All cables must be disconnected before moving equipment, or unit could become unstable and either tip or collapse.**
- **It is recommended to have assistance when assembly steps require flipping unit over or units require moving into place.**
- **Exercise caution if you see this (symbol)  in the instruction guide.**
- **Wipe clean with a cloth dampened in a mild cleaner, then wipe dry with a clean cloth.**
